CRISIL Limited: Audited Financial Results for the year ended December 31, 2015

The Board of Directors of CRISIL Limited, at its meeting today, approved the audited financial results for the year ended December 31, 2015.

Quarterly revenues up 18% y-o-y, marking annual topline growth of 10% y-o-y

CRISIL's consolidated total income for the quarter ended December 31, 2015 was up 18 per cent to Rs. 385.05 crore, compared with Rs. 326.94 crore in the corresponding quarter of the previous year. The net profit after tax for the quarter rose 23 per cent to Rs. 87.05 crore as against Rs. 70.79 crore in the corresponding quarter of the previous year.

CRISIL registered a growth of 10 per cent in its consolidated income from operations for the financial year 2015 from Rs. 1,254.82 crore to Rs. 1,381.60 crore. Its consolidated profit after tax rose 6 per cent to Rs. 285.16 crore, compared with Rs 268.44 crore in the previous year.

Total dividend payout of Rs. 23 per share in 2015

During the year, the Company paid three interim dividends amounting to Rs. 13 per equity share of face value of Re. 1 each. The Board of Directors has recommended a final dividend of Rs. 7 per share and a special dividend of Rs. 3 per share. The total dividend for the year works out to Rs. 23 per share. In 2014, CRISIL paid a dividend of Rs. 20 per share which included a special dividend of Rs. 4 per share.

Ashu Suyash, Managing Director & Chief Executive Officer, CRISIL, said, "Global Research and Analytics business grew significantly driven by opportunities arising out of the changing regulatory environment, and our strong capabilities in the risk and analytics areas. The India businesses continued to strengthen their position in a subdued operating environment."

Businesses continue to perform well amidst tough market conditions

While the operating environment remained weak with muted investment and poor credit offtake by Corporate India, CRISIL Ratings maintained its position as the market leader and gained share of mind through innovation and thought leadership initiatives. The first partially guaranteed debenture structure, reports on performance of sectors such as power and banking, are examples of such initiatives.

The Global Analytical Centre (GAC) continued to work closely with Standard & Poor's Ratings Services, growing in new areas such as risk management and regulatory support. GAC also continues to broaden its support across other McGraw Hill Financial businesses.

India Research maintained its premium position, posting growth in the face of strong challenges. With banks stressed due to poor credit growth and high NPAs, and private sector investments hard to come by, the demand for research services was muted. The team furthered the franchise and thought leadership agenda, enabling discussions amongst regulators and policy makers.

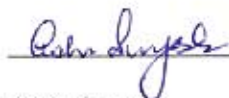

In Global Research & Analytics, the Risk & Analytics business grew significantly, while expanding support for stress testing, modeling / model validation and other regulatory change initiatives. The Global Financial Research Services business grew on the back of sharp focus on diversification of client base and asset classes. The analytics business in Coalition delivered a robust performance, driven by its core Competitor and Client Analytics products and newer analytics.
